Rodents (RATS and Mice)

There is a nearby community with pest issues... The most common rodent attractants include either pet food, bird seed or food improperly disposed of. Once rodents find and get a taste of these nutritious foods, they will return daily to feed. **Do not feed pets and/or leave pet food outdoors.** Tie trash bags tightly so trash does not spill and dispose of the bags.

Patios, balconies, garages and other areas that are full of storage and clutter makes a perfect place for the rodents to make their nests and multiply. **Please clean areas that have storage and clutter.** Rodents carry diseases that can be transmitted to humans.

PLEASE PICK UP AFTER YOUR PETS!!!

Needed Maintenance

Please report any needed repairs that are the responsibility of the Association to Sheila or Laura at Team Property Management.

WINDOW SCREENS

All windows must have a window screen. Screens must be in good condition with no rips, holes, bends, and must fit properly.

Window screen kits can be purchased at any home improvement center. Additionally, there are many mobile screen vendors that will come to your home and make or repair your screen at a reasonable price.

**Gate Code for May is
6872#**

Do not post this code outside the gates or anywhere on the property, i.e., Uber or Lift drivers to get in... This will help keep your HOA safe.
